

X-Elite Academy

Small-group soccer training

Our X-Elite Academy training is offered to provide high-end soccer training sessions with groups of 14 or less. Each session will be one-hour long with high-energy and high-intensity. Participants will receive focused attention and advanced training primarily focused on technical skill development. Topics will include 1v1 attacking and defending, 1st touch, turning, ball striking (passing & finishing), and small-sided games. Other objectives include improving game and technical awareness, confidence with the ball in pressured situations, and building a greater passion for the game.

All sessions will be both physically and technically challenging as well as age appropriate. There are no makeups for missed classes, no refunds, and we must have a minimum of 12 registrants for a session to be held.
